

THANK YOU FOR YOUR GIFT TO THE STUDENTS OF OUR COMMUNITY!

Improvements at both Elementary Schools = 

New Alternative High School = 

New High School = 

New Middle School = 

Next on our to-do list is the demolition of the existing middle school; that area will become a parking pavilion serving middle school, high school, district office and athletic fields.

I am learning that there are great memories associated with the old middle school which started its life as North Mason High School in 1967. A very good friend of mine who graduated in 1968 recalled how she and her classmates carried the classroom equipment and supplies up the hill from their existing home in the original high school (old district office) that was built in 1960 to their new high school. This was the fall of 1967.

Prior to winter break this school year, our middle school staff and students marched across the parking lot with their equipment and supplies to take possession of their new middle school home. Students and families will enjoy a “private” Open House to view the new learning environment while the general public will be invited to an open house January 10th.

All of this facility replacement and upgrade would not have been possible without the support of our community. Groups such as Relay for Life and Beards Cove Community Club, along with others, have utilized the high school and district office facilities for meetings already. It is the desire of the school district that many community groups will also choose to hold their activities in the buildings. Mark Swofford, NMHS Activities/Athletic Director, is available to schedule those events. Contact Mark at 277-2165 or mwofford@northmasonschoools.org

Once the new parking areas are complete, the next phase of the construction bond will be the high school stadium.

We are definitely building for the future and WE THANK YOU!!!!

Laura Boad, Director

District #3
